

Accepted with corrections 12/13/16

Plainfield Energy Comm. Meeting, 11/7/16

Meeting Convened at 7:04

Present: Conrad, Tim, Steve and Judy Williams

Minutes read, amended and accepted from the previous PEC meeting

Welcome Judy to the PEC!

We discussed what we could bring to the Selectboard meeting to keep the Green Comm. Application alive. We want to give the Selectboard a written proposal that would indicate their support for the E.R.P. as it exists to-date for their meeting on 11/8.

Conrad has been (tirelessly!) analyzing the Bales Energy proposal, suggesting amendments to them for re-submittal and including those metrics on the E.R.P portion of our G.C. application. Writing the summary for the Selectboard isn't possible without having the results of the projected savings from the measures proposed for each of the town buildings.

Direct Energy Solar money came in. Of the \$5,800. \$2,600 was used for Bales Energy Consult for ERP, leaving \$3,200. \$305. Left from Solarize.

The next PEC meeting is going to be the 2nd Monday in December, the 14th. Meeting was adjourned at 8:10.

Respectfully submitted,
Stephen Bushway
