

Plainfield Energy Committee –December 14th, 2022 – minutes

Meeting convened at 7:17. Conrad, Walter, and Renee were present and Peter Lapointe joined the meeting.

1. Reading of November minutes included- motion was made to approve a \$102,473 proposal which includes insulation work for the Hallock building, Town Hall, and Hathaway Hall. It would also include air source heat pumps for the Hallock building and the highway garage. This leaves a surplus of \$9102.
2. Discussed Hallock building – Insulation work already completed
3. Discussed Town Hall -
 - Drywall will need to be installed on second floor walls for insulation work- the Building Committee was planning to complete that project after January 23rd.
 - Dehumidifier – the Building Committee will research alternative pricing.
 - Foaming the basement wall – asking Green Collar to provide heat so foam can be applied
 - Installing plastic vapor barrier on basement dirt floor, attempts to reduce basement moisture.
4. Discussed options to spend the remaining grant funding of \$9102.
 - Police Station – add ASHP, also discussed getting a passcode from Chief Litchfield because the building has been hard to access for insulation work.
 - LED lighting for the far end of the garage was discussed at prior meeting

Meeting adjourned at 8:15
