

I am requesting \$1200⁰⁰ to help finish the site work started at the old animal pound found on the discontinued section of High St. in Plainfield. This money will cover the cost of excavation and foundation work necessary for me to start rebuilding the walls of this 30' x 30', 1807 historic stone structure.

Eventually the pound will be the culmination of a 1/4 mile history trail that will include cellar holes and informational signage accessed from River Rd.
